## Web developer

✉ Kiranbohraofficial@gmail.com ☎ 8178105280 📍 Faridabad, Haryana 🌐 Kiran Kumar 🔗 Portfolio

**Full Stack Web Developer** building scalable web apps using **Node.js, Express, MongoDB, React,** and **Next.js**. Skilled in **API integration, real-time features, payment integration,** and **automation tools** like **n8n**. Strong backend focus with solid frontend support, delivering secure and efficient solutions. Experienced in **deploying applications on AWS** using **EC2, S3, CloudFront,** and **Route 53** for performance and scalability.

## SKILLS

Nodejs | Express | MongoDB | NextJs | React | Postgres | AI integration & Automation | Supabase |  
Firebase | n8n automation | Git & Github | REST APIs | OAuth | Linux | Postman | VS Code

## PROFESSIONAL EXPERIENCE

### Freelancer Web Developer

08/2025 – Present

*Freelancer*

Remote

- **Full-Stack Development** – Built scalable **backends** with Express, TypeScript, MongoDB, and secure REST APIs with JWT.
- Designed and developed **frontends** with React, Tailwind CSS, and Bootstrap, ensuring responsive UI/UX.

### Full stack Web developer

12/2023 – 07/2025

*Hybrid Utopia* 📍

Faridabad, India

- Backend development using **Express, TypeScript,** and **MongoDB**.
- Built **REST APIs** with **JWT authentication** and optimized **MongoDB** data models.
- Developed **real-time** chat functionality using **Socket.IO**.
- Contributed to major **projects** like a **Pods** system and a **fundraising** app.
- Built responsive UIs using **React, Tailwind CSS, HTML, CSS,** and **Bootstrap**.
- Worked with **AWS EC2** and **S3** for hosting, storage, and deployment.
- Ensured smooth full-stack integration and collaborated on API development.

## PROJECTS

### MadrasaPlatform

03/2025 – 05/2025

- Developed a **scalable multilingual e-learning platform** using **Express** and **MongoDB**.
- Created secure dashboards for **admins, teachers, and students** with tools for content and progress management.
- Achieved **30% load time reduction** through code and server optimisations.
- applied **RBAC, multi-login prevention,** and **2FA for admins**.
- Deployed live on **AWS EC2,** domain via **GoDaddy,** and used **S3** to store video/PDF content.
- Integrated **CloudFront** for CDN and **Route 53** for DNS management.

### Pods

08/2024 – 06/2025

- Worked on the **React** and **Next.js** frontend for **PODS,** a leading moving and storage company.
- Handled **API integrations** and efficient **data fetching** using **React Query**.
- Executed complex **UI logic** and ensured smooth server/client-side rendering.
- Collaborated with teams to build **responsive, SEO-friendly** components with seamless UX.

### ShopEase

06/2024 – 08/2024

- Built a full-featured **eCommerce website** with **product listing, search,** and **filter**.
- Applied **cart management, order placement,** and **user authentication**.
- Integrated **payment gateway** for secure online transactions.
- Improved using the **MERN stack** to ensure responsive and scalable performance.

### Chat Web App

02/2024 – 03/2024

- Built a **real-time chat app** using **Socket.IO** 📍 with **group** and **one-to-one chat** features.
- Enforced **phone-based login** for user authentication.
- Tech stack: **Express, TypeScript, MongoDB,** and **React**.

## EDUCATION

### Master of Computer Applications

06/2023 – 06/2025

*Indira Gandhi National Open University*

Faridabad, India

### Bachelor of Computer Applications

12/2020 – 06/2023

*Maharshi Dayanand University*

Faridabad, India
